Founded in 1983 by ex-Harley-Davidson engineer Erik Buell, Buell Motorcycle Company aimed to produce motorcycles that emphasized handling, agility, and rider engagement. Unlike traditional cruiser or touring bikes, Buell motorcycles, including the Firebolt series, prioritized sportbike dynamics with a distinctive American twist. The Firebolt line debuted in the early 2000s as a lightweight, performance-oriented naked bike, characterized by minimalist fairings, an exposed frame, and innovative engineering features.

The 2004 Model Year Context

By 2004, Buell had already established itself as a niche manufacturer with a loyal following. It represented Buell?s commitment to delivering high-performance, practical motorcycles designed for everyday sport riding.
